Content

Our mission is to **foster a wellness mindset** in the Filipino people **by working closely with health care professionals** while **providing value** to our employees, customers, shareholders, and the community.

Mission

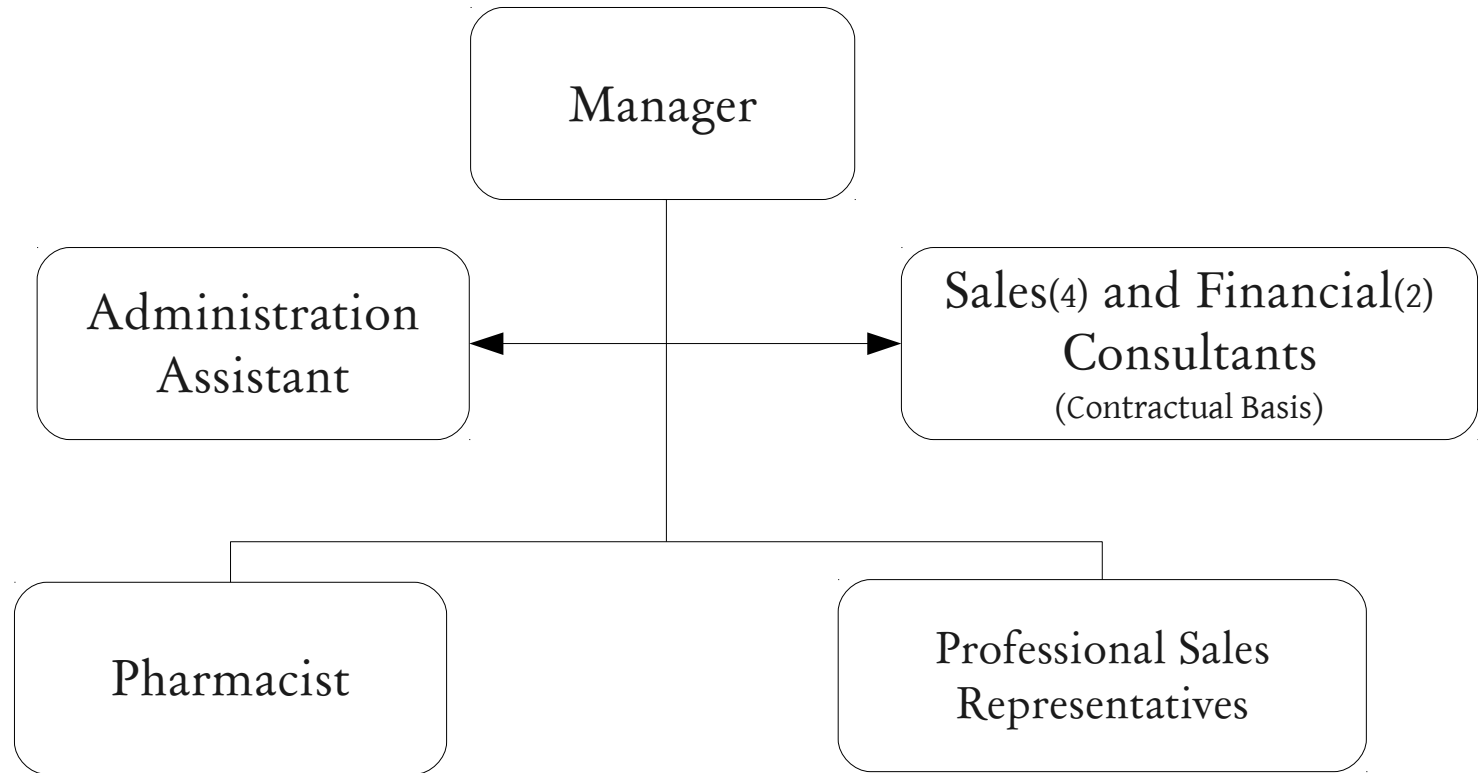

Our vision is to be **one of the best health care providers for Filipino patients**. We shall be guided by the philosophy that the **health of our people is the wealth of our nation**, and this is our foremost motivation and satisfaction in conducting business. There is **no greater objective than seeing that we deliver on this commitment** every single day.

VISION

We create a **culture of excellence and quality** in our work by **fostering an environment of teamwork and collaboration** within the organization, by **instilling hard work and discipline** among our employees, and by **conducting our business in the best ethical way possible.**
